of Marine Edge*

ALEX KOYFMAN
*Head of Sales, South East Europe -
Oracle Communications*

OPHIR FITOUSSI
*Third Year Undergraduate
representative*

ROY MILSHTein
ISP Verification Engineer at Apple

About the program

The Circuits & Linear Systems Lightning Talk Student Contest is a fast-paced showcase of ideas, clarity, and creativity. Each student group will deliver a cutting-edge 3-minute talk on a concept taught in the course, presented in an inspiring and original way. The goal is simple: make rigorous theory feel alive by connecting it to intuition, real-world relevance, and a compelling story that truly engages the audience.
